## — Lebanon Valley College

---

### Description of the report:

The Academic Leveling Report is a learner-by-learner summary of the pre-test and post-test results of the learner's leveling modules. The summary section summarizes all the scores for the selected sample. The report is used to help understand how learners are learning the material in preparation for their advanced degree program.

#### Definitions

**Difference:** The percentage difference (Diff) between Pre-test results and Post-test results, calculated using the following formula:  $\text{Post-test Score} - \text{Pre-test Score}$ .

**Module:** Each module includes a 20 question pre-test, 4-6 hours of online instructional content including review questions, and a 20 question post-test.

**Percentage Change:** The percentage change (% Chg) between two scores. For Inbound and Outbound testing, the percentage change is calculated using the following formula:  $(\text{Post-test Score} / \text{Pre-test Score}) - 1$ .

**Post-test:** A 20 question test that can be completed twice if additional study is required after the first attempt. School officials can set the minimum acceptable score, usually 80% or higher, for the post-test.

**Pre-test:** A 20 question test that allows the student to self-assess current knowledge for more focused learning as the student completes the module. The pre-test includes scores by subject area included with the module.

**Section:** Each module has 3-8 sections of instructional content which includes with interactive review questions to ensure understanding.
